

# SITREN AirVoid® 601

## Product description

SITREN AirVoid® 601 is a composition of anionic surfactants.

## Physical properties

Appearance (20 °C)	clear, yellow
Solid content	approx. 35 %

## Application

SITREN AirVoid® 601 is an air entraining agent for construction applications as concrete, mortar, gypsum etc.

## Properties/Benefits

- Increased freeze/thaw resistance of hardened concretes and mortars
- High air entraining capacity
- Homogeneous Airvoid distribution with good long time stability
- Good workability and dispersibility

## Dosage and Handling

Depending on the application in question the required dosage may vary between 0.005 % and 0.5 % by weight of binder material. For more accurate dosing, pre-dilution with of water are recommended.

## Registration status

The ingredients of SITREN AirVoid® 601 are listed in the following chemical inventories:

EINECS, TSCA, NDSL, ENCS, AICS, TCCL, PICCS, China, New Zealand, ECS

Further information is available on request.

## Storage stability

SITREN AirVoid® 601 as delivered can be stored in closed containers for 12 months.

## Packaging

Container à 1.000 kg

## Hazardous goods classification

Information concerning

- classification and labelling according to regulations for transport and for dangerous substances
- protective measures for storage and handling
- measures in case of accidents and fire
- toxicity and ecological effects

is given in our material safety data sheets.

07/2015

## Trademark notice and legal notice

This information and all further technical advice are based on our present knowledge and experience. However, it implies no liability or other legal responsibility on our part, including with regard to existing third party intellectual property rights, especially patent rights. In particular, no warranty, whether express or implied, or guarantee of product properties in the legal sense is intended or implied. We reserve the right to make any changes according to technological progress or further developments. The customer is not released from the obligation to conduct careful inspection and testing of incoming goods. Performance of the product described herein should be verified by testing, which should be carried out only by qualified experts in the sole responsibility of a customer. Reference to trade names used by other companies is neither a recommendation, nor does it imply that similar products could not be used.

(Status: July 2015)
