

SITREN® P 730

Product description

SITREN® P 730 is a powdered water repellent based on organo-siloxanes.

Physical properties

Appearance	white powder
Active content	approx. 20 %
Carrier	inorganic

Application

SITREN® P 730 may basically be used in those applications where the use of conventional liquid water repellents is not possible or desired, e. g.

- Admixture for cement based formulations such as dry mortars and renders
- Fillers for tile joints

Properties/Benefits

As well as good water repellence SITREN® P 730 provides:

- Good free-flow behaviour
- Easy handling
- Alkali stability

Dosage and handling

SITREN® P 730 is added to the other powdered components and mixed to yield a homogenous formulation.

The dosage may vary from 0.2 – 1.0 % (referred to dry material) depending on the intended use. The required dosage should therefore be evaluated in suitable tests prior to the final application.

Registration status

The ingredients of SITREN® 730 are listed in the following chemical inventories:

EINECS, TSCA, DSL, ENCS, AICS, ECL, PICCS, China.

Further information is available on request.

Storage stability

SITREN® P 730 may be stored in closed containers for at least 6 month; storage temperature should not exceed 35 °C. Longer storage times may cause lumping which normally does not affect the performance of the product.

Packaging

Pallet à 600 kg (30 x 20 kg paper bags)

Hazardous goods classification

Information concerning

- classification and labelling according to regulations for transport and for dangerous substances
- protective measures for storage and handling
- measures in case of accidents and fire
- toxicity and ecological effects

is given in our material safety data sheets.
